-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --

Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

Status

- 1) ☒ Responsive to communication(s) filed on 26 October 2005.
- 2a) ☒ This action is **FINAL**. 2b) ☐ This action is non-final.
- 3) ☐ Since this application is in condition for allowance except for formal matters, prosecution as to the merits is closed in accordance with the practice under *Ex parte Quayle*, 1935 C.D. 11, 453 O.G. 213.

Disposition of Claims

Double Patenting

The nonstatutory double patenting rejection is based on a judicially created doctrine grounded in public policy (a policy reflected in the statute) so as to prevent the unjustified or improper timewise extension of the "right to exclude" granted by a patent and to prevent possible harassment by multiple assignees. See *In re Goodman*, 11 F.3d 1046, 29 USPQ2d 2010 (Fed. Cir. 1993); *In re Longi*, 759 F.2d 887, 225 USPQ 645 (Fed. Cir. 1985); *In re Van Ornum*, 686 F.2d 937, 214 USPQ 761 (CCPA 1982); *In re Vogel*, 422 F.2d 438, 164 USPQ 619 (CCPA 1970); and, *In re Thorington*, 418 F.2d 528, 163 USPQ 644 (CCPA 1969).

A timely filed terminal disclaimer in compliance with 37 CFR 1.321(c) may be used to overcome an actual or provisional rejection based on a nonstatutory double patenting ground provided the conflicting application or patent is shown to be commonly owned with this application. See 37 CFR 1.130(b).

Effective January 1, 1994, a registered attorney or agent of record may sign a terminal disclaimer. A terminal disclaimer signed by the assignee must fully comply with 37 CFR 3.73(b).

Claims 62-81 are provisionally rejected under the judicially created doctrine of obviousness-type double patenting as being unpatentable over claims 1-75, 1-26 and 1-39 of copending Application No. 10/013973, 10/026,415 and 10/084,763 respectively. Although the conflicting claims are not identical, they are not patentably distinct from each other because all teach systems having a membrane for sample acquisition and a reading device to analyze the sample for the analyte(s) of interest.

This is a provisional obviousness-type double patenting rejection because the conflicting claims have not in fact been patented.

Claim Rejections - 35 USC § 102

The text of those sections of Title 35, U.S. Code not included in this action can be found in a prior Office action.

Claims 62, 65-69, 71 and 76-81 are rejected under 35 U.S.C. 102(e) as being clearly anticipated by Anderson et al. (USP 6,867,051).

See the appropriate paragraph of the 6/22/05 Office action.

Claims 62, 65-69,71 and 76-81 are rejected under 35 U.S.C. 102(b) as being clearly anticipated by Allen et al. (USP 5,837,456).

See the appropriate paragraph of the 6/22/05 Office action.

Claim Rejections - 35 USC § 103

The text of those sections of Title 35, U.S. Code not included in this action can be found in a prior Office action.

Claims 63-64, 70 and 72-75 are rejected under 35 U.S.C. 103(a) as being unpatentable over Anderson et al. or Allen et al. in view of Phillips et al.

See Anderson and Allen supra.

See the appropriate paragraph of the 6/22/05 Office action.

Response to Arguments

Applicant's arguments filed 10/26/05 have been fully considered but they are not persuasive.

Applicants' state Anderson et al. fails to teach the claimed "light barrier structure". Anderson et al. teach in columns 40-41 lines 62-14 respectively the only light leakage is through the entrance slot. The Office has read this as teaching the housing shields the strip from all other ambient light. The instant claims do not specify the amount of light shielding (e.g. the claims do not state there is no ambient light). The Office has properly applied Anderson et al. as this reference teaches shielding the strip from all ambient light except for that light coming through the entrance slot.

Applicants' state Allen et al. is silent to the claimed "light barrier structure". The Office maintains Allen et al. teach a closed device that is only open where the strip is inserted. The Office has read this as teaching the housing shields the strip from all other ambient light. The instant claims do not specify the amount of light shielding (e.g. the claims do not state there is no ambient light). The Office has properly applied Allen et al. as this reference teaches shielding the strip from all ambient light except for that light coming through the entrance slot.

This is a RCE of applicant's earlier Application No. 10/035,013. All claims are drawn to the same invention claimed in the earlier application and could have been finally rejected on the grounds and art of record in the next Office action if they had been entered in the earlier application. Accordingly, **THIS ACTION IS MADE FINAL** even though it is a first action in this case. See MPEP § 706.07(b). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no, however, event will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
